Signature of Authorized Certifying Official 				Date Report Submitted March 27, 2007	

West Virginia's 2006 Section 251 Expenditures

West Virginia received a total of \$15,303,569.00 under Title II Section 251 of the Help America Vote Act. Section 251 allows for states to utilize this funding for a variety of uses including but not limited to the replacement of punch card and lever machines, the purchase of accessible voting equipment, the implementation of a statewide voter registration system, and the implementation of provisional voting within the state.

In order to provide for the implementation of West Virginia's comprehensive state HAVA plan, Section 251 funds were used for statewide voter registration support, maintenance, training, connectivity and other minor miscellaneous expenses necessary for the implementation of HAVA and the implementation of West Virginia's statewide voter registration system. Funding was also used to provide for the purchase and implementation of Section 301, voting system upgrade. Of the \$7,231,022.43 that was spent from Section 251 funds the following chart reflects how those funds were utilized.

<i>Title III:</i>	
<i>Section 301 Voting System Upgrade:</i>	<i>\$6,894,421.65</i>
<i>Section 302 Provisional Voting:</i>	<i>\$0.00</i>
<i>Section 303 Computerized Voter Registration List:</i>	<i>\$336,600.78</i>
<i>Total Section 251 Expenditures:</i>	<i>\$7,231,022.43</i>

A majority of the above expenditures related to the implementation of the voting system update. The West Virginia State Plan as appended offered each county a choice of voting systems. In order to ensure that each county was HAVA compliant that Secretary of State's Office implemented a system that provided each county with one accessible voting machine for each precinct within the state. To do so, a request for proposal was issued for a single source vendor to provide the equipment statewide.

Once the process was complete and the proper state purchasing procedures were followed, the selected vendor, Election Systems and Software, Inc. provided a number of options for each county to choose from. In order to provide the best method of voting for each individual county, while still meeting the requirements of Section 301 of HAVA, the Secretary of State offered the following options of equipment:

- Option 1: One accessible iVotronic touch screen machine with Real Time Audit Log per precinct and one M650 Central Count Optical Scan Machine.
- Option 2: One accessible iVotronic touch screen machine with Real Time Audit Log per precinct and a number of regular iVotronic touch screen machines with Real Time Audit Logs per precincts to meet requirements of West Virginia law based on number of voters per precincts.
- Option 3: One accessible AutoMARK optical scan machine per precinct and one M650 Central Count Optical Scan Machine.

The cost of Option 1 was to be met entirely with HAVA funds and was to include the cost of one election cycle of optical scan ballots and programming for the new voting equipment as well as voting booth and other necessary voting accessories to fully implement this option. If a county choose any other option, the county could utilize a credit of an amount equal up to the cost of Option 1 towards another option, but the county would be required to meet any additional costs. In other words, any extra equipment would be at an additional cost of the county. The following chart reflects the choices of the counties as submitted to our office:

County	Precincts	Voters	Selection*	Total Cost	HAVA Funds

Auto/M650/M100 One AutoMARK per Precinct
One M650 Central Count Optical Scan Machine
One M100 Precinct Count Optical Scan per Precinct

In order to meet the requests of each county, the state placed a purchased with the vendor. The contract outlined the specifications and the deliverables to be met and under what time frames. The contract also outlined the payment arrangements which will be reported during the appropriate cycles as they are affected. Each county was supplied with the specific number of equipment ordered for the number of precincts

certified to our office as well as the amount requested in addition based on the option selected. In addition each county was supplied with the appropriate software to operate and test the equipment in accordance with state and federal regulations. The following chart reflects the number of each piece of equipment that was purchased from ES&S during the initial stages of the contract:

The spreadsheet below further details the expenditures and revenues as they relate to HAVA and West Virginia's state plan.

Maintenance of effort in relation to HAVA is very difficult to isolate. Specifically, our office has tracked the expenditures as was reported in the state plan. The following chart tracks the maintenance of effort for each respective fiscal year. Further questions and evidence can be provided upon request.

West Virginia Maintenance of Effort							
Expenditure	FY2000	FY2001	FY2002	FY2003	FY2004	FY2005	FY2006
Office Expenses	\$ 3,144.87	\$ 6,791.22	\$ 1,592.89	\$ 702.15	\$ 4,787.82	\$ 9,081.08	\$ 6,011.38
